'a different universe reinventing physics
from the bottom down

May 24th, 2020 - the following is excerpted
from a different universe reinventing physics
from the bottom down by robert b laughlin new
york basic books 2005 much as i dislike the
idea of ages i think a good case can be made
that science has now moved from an age of
reductionism to an age of emergence a time
when the search for ultimate causes of things
shifts from the behavior of parts to the
behavior of the collective'' a different

universe reinventing physics from the bottom

May 26th, 2020 - a nobel winning physicist argues that fundamental physical laws are found not in the world of atoms but in the macroscopic world around us in this age of superstring theories and big bang cosmology we re used to thinking of the unknown as impossibly distant from our everyday lives but in a different universe nobel laureate robert laughlin argues that the scientific frontier is right under'
