what is rising damp learn all about the damp issue

June 1st, 2020 - what exactly is rising damp what is rising damp this is one of the most common questions we are asked at wise property care in short rising damp in buildings occurs when water from the ground rises up through the bricks and mortar of a building by capillary action in simple terms the water rises up the porous wall of a building in the same way water is soaked up by a sponge in a sink'

'myth 1 rising damp doesn't exist core conservation

May 31st, 2020 - fact rising damp does exist this myth originates from the superficial observation of some not understanding some of the extremely complex underlying molecular phenomena as well as the inability of some to reproduce rising damp satisfactorily in a lab as a result they have given up on the whole thing and have taken the easy way out saying it doesn't exist'

'rising damp fact or myth damp specialists damp

May 22nd, 2020 - rising damp fact or myth our industry sometimes comes under attack with attempts to discredit many companies selling and installing damp proofing treatments or products this is understandable because the problem of structural damp has many causes some of which can be interrelated'

'rising damp is a myth preservation expert

May 15th, 2020 - the real problem is dodgy diagnosis and that is what I am dedicated to fixing it doesn't help to make the argument too polarised which is sadly what the rising damp myth book did the extent of proper scientific peer reviewed data on rising damp is truly massive and very compelling'

'diagnosing rising damp building defect analysis

May 28th, 2020 - the view that rising damp is a myth may cause building surveyors to form a view that it is not worth learning how to properly survey for rising damp the supposition that rising damp is a mon problem has led to a glut of poorly trained industry surveyors and widespread misdiagnosis due to over reliance on hand held electrical moisture meters'

'rising damp myth moneysavingexpert forum

June 1st, 2020 - rising damp is a myth some say not many really think so that would be stupid but those who believe this nonsense seem to have the ear of the press and the ear of rics too so instead of being drowned out by howls of derision from the those who really know about these things they gain publicity and even a bit of notoriety too" *doubts over rising damp the journal*

May 18th, 2020 - some experts say rising damp is a myth house doctor peter fall disagrees every so often the surveying profession is hit with there s no such thing as rising damp headlines it happened again last month with the architects journal proclaiming rising damp is a myth says former rics chief

'the rising damp myth whitworth
